

Stop codes to be used for PCMHI clinics

Stop Code Number	Primary, Secondary, or Either	Stop Code Name
534	E	<b>PC-MHI, Individual.</b> Records individual patient visit for mental health integrated care by a mental health provider in Primary Care-Mental Health Integrated programs. Use in the credit position only when combined with a telephone code. Secondary code can be for provider type, clinic (e.g., pain management=420), or modality (e.g., telemental health=690 for provider site).
539	P	<b>PC-MHI, Group.</b> Records group patient visits for mental health integrated care by a mental health provider in Primary Care-Mental Health Integrated programs.
527	P	<b>Mental Health Telephone.</b> Records patient consultation or medical care management, advice, and/or referral provided by telephone contact between patient or patient's next of kin and/or the person(s) with whom the patient has a meaningful relationship, and clinical and/or professional staff assigned to the Mental Health service. Includes the administrative and clinical services. Provisions of 38 U.S.C. Section 7332 requires that records which reveal the identity, diagnosis, prognosis, or treatment of VA patients which relate to drug abuse, alcoholism or alcohol abuse, infection with HIV, or sickle cell anemia, are strictly confidential and may not be released or discussed unless there is a written consent from the individual. 534 is in the secondary position.
338	P	<b>Telephone Primary Care</b> Records telephone care in officially designated primary care clinics (322, 323, 348, 350, 531). The code will be used to set-up telephone clinic profiles for members of the Primary Care Team and should be associated with an appropriate discipline specific stop code in the secondary position. Primary Care Telephone Clinic profiles, workload generation, and documentation requirements will remain consistent with VHA policy and guidance. Includes patient consultation or medical care management, advice, and/or referral provided by telephone contact between patient or patient's next-of-kin and/or the person(s) with whom the patient has a meaningful relationship, and clinical/professional staff assigned to a Primary Care Team. Includes the provider and support services. Provisions of 38 U.S.C. Section 7332 requires that records which reveal the identity, diagnosis, prognosis, or treatment of VA patients which relate to drug abuse, alcoholism or alcohol abuse, infection with HIV, or sickle cell anemia, are strictly confidential and may not be released or discussed unless there is written consent from the individual. For disease-specific care management (e.g., TIDES, BHL, etc.): 534 is in the secondary position. Either PC or MH telephone code can be used
