

“Implementation Science and Precision Medicine Approaches in Mental Health”

When: 9:00 am – 11:45 am PST (12:00pm – 2:45pm EST) on November 4, 2021.

This webinar is approved for CE/CME training credits through the following accreditation councils:

- Interprofessional Continuing Education (JA IPCE)
- Continuing Medical Education (ACCME) and Non-Physician option (ACCME-NP) American Nurses Credentialing Center (ANCC)
- California Board of Registered Nursing (CA BRN)
- National Board for Certified Counselors (NBCC)
- American Psychological Association (APA)
- New York State Education Department (NYSED) State Board for Psychology Association of Social Work Boards (ASWB)

Purpose: To address the gap in health care professionals’ knowledge and ability to provide mental health treatment for Veterans based in precision medicine. Because this field is relatively new, this webinar will provide many with the first opportunity to learn about recent clinical and implementation trials. Keynote speakers will present about their experience in both the clinical and research fields regarding how and why precision medicine is an upcoming method of treatment to personalize care for Veterans in a variety of mental health related fields. To conclude, they will highlight how to implement and integrate these approaches into current practice.

Target audience: Interprofessional healthcare teams, physicians (specifically, psychiatrists), psychologists, nurses, mental health counselors and social workers.

Agenda:

| Time (PST) | Session | Speaker/Facilitator | Topic |
|---------------------|--------------------------|------------------------------------|---|
| 09:00AM - 09:10AM | Introduction and Welcome | Leanne Williams, PhD | |
| 09:10AM - 09:40AM | Keynote #1 | Kaci Fairchild, PhD, ABPP | Exercise Therapy for Dementia related Problems in Veterans, Informed by a Clinical Trial Integrating Implementation and Biomarker Approaches |
| 9:40AM - 10:10 AM | Keynote #2 | Lisa Kinoshita, PhD | Optimizing the Clinical Effectiveness of CBT for Obstructive Sleep Apnea and PTSD in Veterans, Informed by a Novel Implementation Trial |
| 10:10AM - 10:20AM | BREAK | | |
| 10:20 AM - 10:50 AM | Keynote #3 | Sarah Hagerty, PhD | A New Precision Psychology Approach to Implementing Trauma Therapy for Veterans during the Pandemic |
| 10:50 AM - 11:20 AM | Keynote #4 | Michelle Madore, PhD | Neuromodulation Implementation and Precision Biomarkers for Veterans with Depression and Related Conditions; A first-in-VA National Precision Neuromodulation Clinical Program and How to Refer to this Program |
| 11:20AM - 11:45AM | Discussion | Facilitator, Speakers and Audience | Q&A |
