

Clinical Input Committee (CIC)

Do you have a mental health project or idea that would benefit from feedback or input from a group of VHA clinical care providers?

If so – consider presenting to the SC MIRECC CIC!

Who?

The CIC is comprised of six interprofessional VHA providers and leaders who deliver care to Veterans. The CIC is responsible for providing input on how to strategically advance SC MIRECC programs.

What?

Presentations should focus on Veteran mental health. Projects across all stages (e.g., developmental, implementation, sustainment) are welcome.

When?

The CIC meets on a quarterly basis to discuss strategic ways to improve projects. For more time sensitive needs, feedback outside of quarterly meetings is possible.

How?

Please email the CIC Administrative Team or visit [the CIC website](#) to learn more!
